# SPOKPARK

The future of e-gaming platforms at light speed

# 01.Introduction

SPOK is meant to be an innovative e-gaming platform powered by TRON network that aims at making the online gambling and betting industry decentralized.

Today's gaming market suffers from the crisis of trust between the players and the game organizers. The organizers of gambling games and sports betting resort to manipulating the winnings in order to maximize their profits. The cases of outright refusal to pay out the winnings have become a frequent occurrence.

Thanks to the DApp market growth, the e-gaming industry can now relies on an innovative e-gaming platform that encompasses all the main Blockchain's cornerstones: Performances, Clearness, Fairness, and Profit Redistribution.

Here SPOK.PARK comes to play: provide a completely new game experience removing all the unpleasant procedures of the traditional platforms through a transparent, permission-less and performant e-gaming platform based on TRON Blockchain.

*Join the future of e-gaming platforms at light speed*

# 02.Prospects

According to a report of the British research center, Juniper Research, the total betting volume in online gambling will reach $1 trillion by 2022 on the world scale. In 2018 the betting volume will reach $700 billion and the number of players will double and reach the mark of 684 million persons.

Experts point out that the increase in the market size is directly connected with the development of digital technologies and the increase of players' trust towards online casinos. The Blockchain technology offers big opportunities for the development of the online gambling industry. Already now cryptocurrency gambling is a global market with the capitalization of about $30 billion and the annual growth of 10%.

## 03. The SPOK.PARK Platform

In spite of the significant growth of the online gambling industry, early issues that made some countries to accept, and the others to reject the idea of online gambling, still lurk within. These have, over time, formed to become a major problem faced by the industry. Some of them are highlighted below.

**Illegal tax avoidance:** This is one reason some countries reject online gambling, especially in those which lack the mechanism to monitor or are unwilling to check the activities of the online gambling industry.

**Player discernment :** This is another issue that lurks within the online gambling system. Player discernment occurs mostly in games that are played from remote locations. A player, playing a game with another player that he does not see, may doubt if he is playing with a real human.

**Security :** This is a significant part of the numerous challenges faced by the online gambling industry. Traditional online gambling service providers operate through a centralized network of computers. The primary issue with this method is this: whenever there is any system hacking incident, the user will lose their money including information relating to bank account details and other confidential information

**Trust :** The online gambling industry functions through code generated from a close-source system. A group of developers can change such code within the system. Reasons such as these become expressly visible for games like poker, where both parties initiate and play games remotely makes the issue of trust a significant one in online gambling. Payment: Deposit and Withdrawal are always a big problem for players. Payment issues have been long-standing problems with online gambling due to legislation put on a very low transfer and deposit limit on fiat cards.

**Slowness:** The possible steps in the traditional online gambling systems are numerous because traditional online gambling service providers are desperately interested in getting as much information about players with less focus about the game per se. They are compelled to do this with the intention of protecting their system against unlawful intruders. This is not so with SPOK.PARK system that deployed the Blockchain technology through a smart contract with participants.

**Unreliability:** There are cases where the game host server shuts down and then the player would have to be left at the mercy of the host because he would have to embark on a rigorous process of ensuring a refund of his game. But with the SPOK.PARK system, from the point where you choose your game, to the point of payment, are all based on smart contract powered by the Blockchain technology. Hence in the occurrence of server issues, players would not have to be left fending for themselves.

The SPOK.PARK team introduces a platform that is trustless, borderless, secure, and fast for online gambling powered by the Blockchain technology.

**A Trustless platform:** No need to trust the system, everything is written in Smart Contract.

**A Privacy-Protected Platform:** No need to share any personal information. What you need is just a wallet.

**An Anonymous Platform:** You are hidden from the internet, our platform is only interested in your optimal satisfaction while placing your bets online rather than focusing on knowing your name, your favorites and so on. All we are interested in is that you place your bet, get the outcome and be rewarded.

**A Reliable Platform:** Thanks to Blockchain technology and our decentralized systems, you can play whenever you want and cease the worry about corruption or trusting a third party.

**A Secure Platform:** Online gambling with SPOK.PARK is secure. This means that no one has prior knowledge or access to your online wallet.

**A Transparent Platform:** Everything is transparent, from the time you make your deposit, to the time when your game result will be out, you would have it recorded in a way that is immutable and visible to every person.

## Zero Fees Policy

In the spirit of TRON Network, SPOK.PARK will cover all the energy costs (fees) of the bets made by all players. The coverage of fees will be performed with a best effort policy up to the complete burnout of the energy generated by the amount of TRON frozen by the owner of the smart contracts. To continuously improve the coverage of the policy, a percentage of the earnings generated by the platform will be frozen to produce energy.

## Referral Program

SPOK.PARK comes with a unique referral program hard-coded into the smart contract. Simply refer your friends to join SPOK.PARK and you will receive 0.2% of all their winnings. Bonuses will be automatically transferred through a smart contract to the promoting player's wallet.

The SPOK.PARK team also introduces next generation technology content to e-gaming platforms with higher performance and scalability features. As mentioned above, the TRON network is a new technological advancement in Blockchain looking to decentralize the web. With the ability to handle 2000 Transaction Per Second it provides a stable network with ease of scalability compared to other Mainnets providing users with the best user experience.

## SPOK.PARK Phase 2 Concept

SPOK.PARK Phase 2 is a visionary idea of an online e-gaming platform where absolutely all the games will be hosted and controlled by the users of the platform. The platform is created as a "white label", so we can sell it to other operators. This, in turn, will allow us to share the concept around the world in a short time and make it an industry standard.

Also this platform has an open API (application programming interface). This will make it possible to add games created by third-party developers. This way the library of games on the platform can be constantly replenished and expanded with minimum time and money invested.

The basic payment unit for the services provided by the platform is "Captain Kirk" token (CKK) ID:1001363.

Phase 2 will be also characterized by the availability of following main features on the platform:

- SPOK.PARK will develop an exchange on the platform so users can freely exchange tokens on the platform itself.

- SPOK.PARK will add another layer of income generation in the form of an advertising share on the platform providing SPOK token holders with even more earnings.

- SPOK.PARK additional games.

## SPOK.PARK Phase 2 Concept

SPOK.PARK Phase 2 is a visionary idea of an online e-gaming platform where absolutely all the games will be hosted and controlled by the users of the platform. The platform is created as a "white label", so we can sell it to other operators. This, in turn, will allow us to share the concept around the world in a short time and make it an industry standard.

## 04. The SPOK token

Conversely to many crypto e-gaming platforms, requiring users to use a proprietary token only available on their platform, SPOK.PARK will use TRX as the major currency on the platform: both wagers and related earnings are TRX based.

Users need just to use, or alternatively set up, a TRON wallet, logon to the SPOK.PARK platform and they can immediately enjoy a totally different gaming experience.

So what's the role of SPOK Token on the platform?

SPOK (SPK) ID:1001361 will be anyway the heart of the complete project: everything will rotate around it.

SPK tokens are TRC10 compliant, which certainly reduces the processing and transaction time required for transferring of funds.

Hereinafter a recap of main benefits deriving by holding SPOK Tokens

### Lifetime admission to all Bonus Tournaments on the TRON.SPOK platform.

The Bonus tournament is easy and real money for free (you don't need to make any investments).

The prize fund for all Bonus Tournaments is forming constantly: after finishing each and every game on the SPOK.PARK platform, the commission is taken from the winner and 100% of this fee is automatically transferred to the Fund.

To get the status of a lifelong player is simply required to make your contribution to the project.

Gold and Latinum investors will be eligible for lifetime benefits and for participation in all bonus tournaments without fulfilment of any additional conditions.

You can see the conditions for each status of the investor in the table below.

| TIER | Investment@Snapshot | Eligible for one time bonuses | Eligible for lifetime bonuses |
|------|---------------------|-------------------------------|-------------------------------|
| KIRONIDE | 100,000 TRX | YES | 10% Chance |
| THOLIAN SILK | 200,000 TRX | YES | 20% Chance |
| GOLD | 300,000 TRX | YES | Manually Qualified |
| LATINUM | 500,000 TRX or higher | YES | Auto Qualified |

## The right to vote.

Regularly, we will hold a vote among our users in order to improve the SPOK.PARK platform. You will be able to try on the role of the performer of the project's fate. Your vote will directly affect the future functionality of the platform, and you will be able to choose the games other people will play and test their luck.

## Token Distribution

The total supply of 100,000,000,000 SPOK will be distributed as illustrated below:

- 35% Token sale
- 30% Mining
- 20% SPOK Team
- 10% Burning
- 5% Bounties & Airdrop

# 05. Mining and Platform Dividends

30% SPOK tokens will be mined and distributed to SPOK.PARK Platform Players

## Mining at Glance
SPOK mining will be arranged in 6 different stages :

- During each stage 5,000,000,000 of SPOK will be mined for a total of 30,000,000,000 SPOK;

- Every TRX placed on SPOK.PARK returns SPOK tokens to the players and the opportunity to receive dividends;

- In the following table is shown the mined SPOK per each placed TRX:

| Mining STAGE | Mined SPOK per TRX |
|---|---|
| STAGE 1 | 6 |
| STAGE 2 | 5 |
| STAGE 3 | 4 |
| STAGE 4 | 3 |
| STAGE 5 | 2 |
| STAGE 6 | 1 |

## Dividends
On a regular basis, 80% of the company's (SPOK.PARK) revenue will be distributed to SPOK token holders.

Dividends are paid out every 24 hours. You can check the countdown timer for the next dividends payout on https://spokpark.io on Dividends section.

Dividends distribution is made in TRX among all SPOK token holders who froze their tokens (at least 1,000,000 SPOK) on SPOK.PARK Platform before the end on the Dividends countdown.

After the Dividends countdown expires, dividends will be distributed automatically and immediately by the smart contract.

SPOK.PARK

## 06. SPOK Roadmap

20,000,000,000 SPOK in circulation to reach a soft cap target of 2,000,000 TRX (1 SPK = 0.001 TRX). Hard Cap is defined at 30,000,000,000.

The raised funds will be used to develop the Decentralized Online Betting Platform and to set solid partnerships. SPOK will be listed on many exchanges from Q2 2019, leaving the price definition to the free market.

### Q4 – 2018

- 1,000,000,000 SPOK giveaway for Prizes & Promotions.
- The initial token sale will start for crowd-funded.

### Q1 – 2019

- White Paper 2.0 Official Release
- Begin extensive PR & Social Media Campaigns.
- Complete the initial token sale of 20,000,000,000 SPOK and achieve a soft cap of 2,000,000 TRX.
- The raised funds will be used to develop the Decentralized Online Betting Platform and set solid partnerships
- Snapshot for Captain Kirk (CKK) AIRDROP eligibility (28th February)

### Q2 – 2019

- Official Launch of beta version of Decentralized Online Betting Platform.
- To reward our loyal SPOK holders, we will do 1 airdrop 5,000,000,000 CaptainKirk (CKK) tokens to eligible wallets.
- SPOK will be listed on at least two exchanges.
- The price of SPOK will be determined by the users of the exchanges.

### Q3 – 2019

- Official Launch of first release of Decentralized Online Betting Platform.

### Q4 – 2019 / Q1 – 2020

- SPOK.PARK Phase2
- 10,000,000,000 coins will be burnt .

## About us

SPOK has been conceptualized by a team of brilliant marketers, advisors, SW engineers, Blockchain experts and visionaries. SPOK community comes from a wide range of backgrounds. This combined effort is surely destined to unveil the future with a golden rapport in the cryptocurrency market.
